Offer Extended.

100 Envelopes With Return Card Printed on Them Given With Paid in Advance Subscriptions.

Each subscriber paying a dollar in advance on subscription can have 100 nice envelopes with return card neatly printed on them. In this day and age you are very much behind the times if you fail to have a return card printed on your envelopes, and then, too, if your letter is not delivered it will be returned to you. In this way the letter does not reach the dead letter office.

The postoffice department, we understand, will soon make an order refusing to take for transmission through the mails letters which do not have a return card on them. Get right and have your letters sent in the right kind of envelopes.

This offer applies only to persons living in Cherokee county, Kansas, and Ottawa county, Oklahoma.

Get your order in early, and we will print the envelopes for you and you can get them at your convenience.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

Breeders, Attention.

The News is the place to get your horse and jack cards printed. We have a fine assortment of cuts, and we have the type and presses needed for your kind of work. By the way, have you seen the big card this shop printed for the State Line Stock Farm? And those for Steve Blanchard, and H. W. Stasell? Take a look at those cards.

Sick headache results from a disordered condition of the stomach, and can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by all dealers.

Want a Pension?

Another reader who lives down by Winfield, Kas., makes this suggestion. He proposes what he calls an "increment" tax. He says "Let there be an increment tax put upon each person owning from \$50,000 to \$75,000, say one-half of 1 per cent; from \$75,000 to \$100,000 say 1 1-2 per cent, and so on, gradually increasing the tax, the money thus raised to be given in monthly pensions to all worthy, law abiding citizens over 21 years of age not worth to exceed \$300. No drinking or gambling person would be eligible. The money could be distributed by the commissioners or commissioner of the poor."

There are some strong arguments in favor of a well regulated old age pension system, but I can think of no reason on earth why a strong, healthy young man of 21 or anywhere along the line from that age to 60, should be given a pension and become a public charge. I would certainly be most decidedly opposed to such a scheme and it occurs to me that no self-respecting, energetic and ambitious young man would want to be a public pensioner.

Now when a citizen, either male or female, has led an honest industrious life, educating and caring as well as possible for their families and doing such work as they have been able to do and as well as they could until old age makes it no longer possible for them to do much work, they are entitled to a good deal of consideration from organized society. In other words, society owes such persons a debt that it is right to pay in the form of old age pensions.

Many of the large corporations have already recognized this principle by establishing a pension system based on the theory that when an employee has faithfully served for a certain number of years the corporation is indebted to him in an amount equal to the pension allowed him for the rest of his life.

The old age pension system is already established in several of the European countries, notably England, Ireland and Scotland. I am told that it works well. Those who have been dissipated, vagrants and law breakers are excluded from the benefits of the law. The result, I am told, has been a marked reduction in crime, drunkenness and vagrancy. The pension is a certificate of honor in that it shows that the recipient has been honest, industrious, sober and law abiding. There are, as I have said, many arguments in favor of the old age pension system, but so far as I can think now not one argument in favor of a system that would make every able bodied man and woman who did not happen to have \$300 a public charge. The Winfield reader may have thought he was serious when he made that suggestion, but I am inclined to think a second thought will convince him that he wasn't. —Tom McNeal in Mail and Breeze.

helped should be allowed to check the growth of the plants.

The first time over after corn is up, get up close to the plants with narrow shovels, but they need not be put down deep.

Shallow cultivating the season through is coming more and more into favor in the corn belt. Experiment stations recommend it.

When corn has reached a height of 2 or 3 feet even the middles of the rows should not be cultivated over 4 inches deep, and less is better.

Deep cultivation is advisable when excessive rains have packed the soil and kept it water soaked. Deep cultivating helps to dry and aerate the soil.
